

### Statistics on Grade Distribution

Final Grade Category	Definition	Total Graduates	Percentage (%)
<b>BA 60710400 – Power Engineering</b>			
90 – 100 (Excellent)	The student makes independent conclusions and decisions, can think creatively, observe independently, can apply the acquired knowledge in practice, understands, knows, can express the essence of science (subject), and when it is considered that he has an understanding of the subject - a grade of 5 (excellent)	4	7
70 – 89 (Good)	The student independently observes, can apply the acquired knowledge in practice, understands the essence of the science (topic), knows, can express, tell, and when it is considered that he has an idea about the subject (topic) - grade 4 (good)	23	38
60 – 69 (Satisfactory)	The student is able to apply the acquired knowledge in practice, understands the essence of the science (subject), knows, can express, tell and is considered to have an understanding of the subject – grade 3 (satisfactory)	33	55
0 – 59 (Unsatisfactory)	If it is established that the student has not mastered the subject program, does not understand the essence of the subject (topic) and has no idea about the subject - grade 2 (unsatisfactory)	-	-
<b>BA 60710500 – Electrical Engineering</b>			
90 – 100 (Excellent)	The student makes independent conclusions and decisions, can think creatively, observe independently, can apply the acquired knowledge in practice, understands, knows, can express the essence of science (subject), and when it is considered that he has an understanding of the subject - a grade of 5 (excellent)	6	14,6
70 – 89 (Good)	The student independently observes, can apply the acquired knowledge in practice, understands the essence of the science (topic), knows, can express, tell, and when it is considered that he has an idea about the subject (topic) - grade 4 (good)	9	22
60 – 69 (Satisfactory)	The student is able to apply the acquired knowledge in practice, understands the essence of the science (subject), knows, can express, tell and is considered to have	26	63,4

	an understanding of the subject – grade 3 (satisfactory)		
0 – 59 (Unsatisfactory)	If it is established that the student has not mastered the subject program, does not understand the essence of the subject (topic) and has no idea about the subject - grade 2 (unsatisfactory)	-	-
<b>MA 70710410 – Energy saving and energy audit</b>			
90 – 100 (Excellent)	The student makes independent conclusions and decisions, can think creatively, observe independently, can apply the acquired knowledge in practice, understands, knows, can express the essence of science (subject), and when it is considered that he has an understanding of the subject - a grade of 5 (excellent)	1	50
70 – 89 (Good)	The student independently observes, can apply the acquired knowledge in practice, understands the essence of the science (topic), knows, can express, tell, and when it is considered that he has an idea about the subject (topic) - grade 4 (good)	1	50
60 – 69 ((Satisfactory))	The student is able to apply the acquired knowledge in practice, understands the essence of the science (subject), knows, can express, tell and is considered to have an understanding of the subject – grade 3 (satisfactory)	-	-
0 – 59 (Unsatisfactory)	If it is established that the student has not mastered the subject program, does not understand the essence of the subject (topic) and has no idea about the subject - grade 2 (unsatisfactory)	-	-
